

Occupational Health, Safety and Environment Policy

Corem manages its activities to provide **a healthy and safe workplace to its employees, visitors and subcontractors** and to protect **the environment**.

Through multiple actions, Corem makes all the necessary efforts **to prevent** occupational injuries and pollution.

To do so, Corem commits to:

- Manage its activities **in compliance** with laws and regulations, while putting the emphasis on prevention;
- Insure **continual improvement** of its systems and practices under this policy;
- Manage health, safety and environmental issues **in an integrated and harmonized manner** in collaboration with the overall management of the organization;
- Support and recognize **participation and performances**.

With a culture that promotes **innovation, learning and multidisciplinary**, Corem relies on the **commitment** and **accountability** of its personnel to achieve its objectives with regards to the workplace and the environment.
